IMMUNOLOGY

CONTENTS

Vol. 41 No 1 **September 1980**

Review paper

D. H. KATZ: Recent studies on the regulation of IgE antibody synthesis in experimental animals and man 1

K. NAKAMURA: Conversion of immune response patterns from high to low and low to high by an RNase-sensitive thymocyte extract 25

C. DE CEULAER, S. PAPAZOGLOU & K. WHALEY: Increased biosynthesis of complement components by cultured monocytes, synovial fluid macrophages and synovial membrane cells from patients with rheumatoid arthritis 37

C. J. LEE: Maternal–foetal interaction, antibody formation, and metabolic response in mice immunized with pneumococcal polysaccharides 45

R. FOA, M. N. ZAFAR & D. CATOVSKY: Inhibition of T-lymphocyte colony formation by inhibitors of mitochondrial protein synthesis 55

MARILYN L. BALTZ, R. F. DYCK & M. B. PEPYS: Amyloid P-component in mice injected with casein: identification in amyloid deposits and in the cytoplasm of hepatocytes 59

C. S. F. EASMON, P. J. COLE, A. J. WILLIAMS & M. HASTINGS: The measurement of opsonic and phagocytic function by Luminol-dependent chemiluminescence 67

JOAN M. RHODES & INGA LIND: Uptake and degradation of staphylococcal protein A–IgG and HSA–IgG complexes by peritoneal macrophages from rabbits, guinea-pigs and mice

K. NOMOTO, S. YOSHIDA & K. HIMENO: Comparability of delayed hypersensitivity in various rodents. II. Jones–Mote hypersensitivity in guinea-pigs immunized with sheep erythrocytes and its modification by cyclophosphamide or BCG pre-treatment 83

G. T. RIJKERS, ELIZABETH M. H. FREDERIX-WOLTERS & W. B. VAN MUISWINKEL: The immune system of cyprinid fish. Kinetics and temperature dependence of antibody-producing cells in carp (*Cyprinus carpio*) 91

E. YEFENOF: *In vitro* generation of cytotoxic lymphocytes against radiation and radiation leukaemia virus-induced tumours. II. A radiation-induced thymoma generates cytotoxic response in syngeneic but not in allogeneic lymphocytes 99

B. E. OGDEN & H. R. HILL: Histamine regulates lymphocyte mitogenic responses through activation of specific H_1 and H_2 histamine receptors 107

F. A. KLIPSTEIN, R. F. ENGERT & HELEN B. SHORT: Immunological cross-reactivity of heat-labile enterotoxins produced by enterotoxigenic and enteropathogenic strains of *Escherichia coli* 115

R. R. SCHELLENBERG: Enhanced phospholipid metabolism in rat mast cells stimulated to release histamine 123

J. C. HOWARD, G. W. BUTCHER, DIANA R. LICENCE, G. GALFRÈ, B. WRIGHT & C. MILSTEIN: Isolation of six monoclonal alloantibodies against rat histocompatibility antigens: clonal competition 131

MONIQUE LIACOPOULOS, FRANCINE LAMBERT & P. LIACOPOULOS: Non-specific inhibitory processes of immunological and mitogenic cellular responses. I. Comparative effect of four suppressive agents 143
A. K. KAUSHIK & R. PANDEY: Cellular and humoral immune responses to buffalopox virus in experimentally infected mice and rabbits 153
T. OKUDA & T. TACHIBANA: Complement receptors on Raji cells. The presence of a new type of C3 receptor 159
Y. SHIMAMOTO, K. TANIGUCHI, C. KUBO & K. NOMOTO: Differences in thymus-dependency among various T-cell functions 167
ELIZABETH J. FOLKERD, BRIGITTE GARDNER & N. C. HUGHES-JONES: The relationship between the binding ability and the rate of activation of the complement component C1 179
NANCY HOGG & C. R. PARISH: Surface antigens of the murine cytostatic peritoneal macrophage 187
J. A. DENBURG, A. D. BEFUS & J. BIENENSTOCK: Growth and differentiation *in vitro* of mast cells from mesenteric lymph nodes of *Nippostrongylus brasiliensis*-infected rats 195
H. W. RENSHAW & R. J. GILMORE: Alternative and classical complement pathway activity in sera from colostrum-fed and colostrum-deprived neonatal pigs 203
J. MARCINKIEWICZ & W. PTAK: Macrophage suppressor factor in contact sensitivity. Mechanisms of its release and action 211
J. H. PASSWELL, H. R. COLTEN, E. L. SCHNEEBERGER, Z. MAROM & E. MERLER: Modulation of human monocyte functions by Fc fragments of IgG: a comparison to other monocyte 'activators' 217
I. L. SARGENT & M. R. SALAMAN: Effects of human transfer factor on the migration of guinea-pig macrophages: is there an antigen-specific activity 227
A. KIJLSTRA, W. VAN DORP, M. R. DAHA & R. G. Q. LESLIE: The effect of lidocaine on the processing of soluble immune aggregates and immune complexes by peritoneal macrophages 237
BOOK REVIEWS 245
ANNOUNCEMENT 247

Vol. 41 No 2 **October 1980**

Review paper

J. BIENENSTOCK & A. D. BEFUS: Mucosal immunology 249
K. W. BATCHELOR & D. R. STANWORTH: A comparison of the histamine-releasing properties of rat pleural and peritoneal mast cells 271
J. J. HAAIJMAN, JOKE SLINGERLAND-TEUNISSEN, A. VAN OUDENAREN, J. G. MINK & R. BENNER: Kinetics of recovery of serum Ig levels and of cytoplasmic Ig positive cells in various lymphoid organs of nude mice after thymus transplantation 279
B. S. KIM & D. K. CHIN: Presence of a tumour-inhibiting factor (TIF) in sera from normal but not tumour-bearing mice 289
T. SAKEMI, A. KURIOWA & K. NOMOTO: Effect of carrageenan on the induction of cell-mediated cytotoxic responses *in vivo* 297
MADELEINE E. DEVEY & M. W. STEWARD: The induction of chronic antigen–antibody complex disease in selectively bred mice producing either high or low affinity antibody to protein antigens 303

F. K. Stevenson, D. Morris & G. T. Stevenson: Immunoglobulin produced by guinea-pig leukaemic B lymphocytes: its source and use as a monitor of tumour load 313
M. L. Lukić & M. M. Simić: Accessory cell function in immune responses *in vivo*: enhancing effect of radioresistant spleen cells on antibody response to SRBC in rats 323
T. Sawada & Y. Bito: A B-cell subpopulation relatively insusceptible to the cytotoxic effect of anti-bursa cell serum and partially defective in immune function 331
Ruth Lifshitz, M. Schwartz & Edna Mozes: Specificity of genes controlling immune responsiveness to (T,G)-A–L and (Phe,G)-A–L 339
T. Diamantstein, Dorothea Trissl, M. Klos, D. Gold & H. Hahn: Mitogenicity of *Entamoeba histoloytica* extracts for murine lymphocytes 347
J. Shoham, Miriam Cohen, Yardena Chandali & A. Avni: Thymic hormonal activity on human peripheral blood lymphocytes, *in vitro* 353
P. G. Holt & J. E. Batty: Alveolar macrophages V. Comparative studies on the antigen presentation activity of guinea-pig and rat alveolar macrophages 361
O. Eremin, R. R. A. Coombs, J. Ashby & D. Plumb: Natural cytotoxicity in the guinea-pig: the natural killer (NK) cell activity of the Kurloff cell 367
J. Knop: Influence of various macrophage populations on Con-A induced T-cell proliferation 379
U. C. Chaturvedi, Helmata Dalakoti & Asha Mathur: Characterization of the cytotoxic factor produced in the spleen of dengue virus-infected mice 387
J. Mizuguchi, T. Kakiuchi, H. Nariuchi & T. Matuhasi: Effect of lipopolysaccharide (LPS) on the thymocyte response to PHA: strain difference 393
L. Aarden, R. B. Corley, A. Söderberg & I. Lefkovits: Limiting dilution analysis of the suppressive effect mediated by alloantigen-primed cells 399
I. Lefkovits, L. A. Aarden & R. B. Corley: Ratio-dominance model of suppression: an analysis by limiting dilution 407
Emily Selvan, D. S. Joshi & G. P. Phondke: A sub-set of murine T lymphocytes forming rosettes with rabbit erythrocytes 415
Hazel M. Dockrell, J. B. de Souza & J. H. L. Playfair: The role of the liver in immunity to blood-stage murine malaria 421
J. -M. R. Saint-Remy & P. Cole: Interactions of chrysotile asbestos fibres with the complement system 431
R. P. MacDermott, G. S. Nash, Nancy S. Merkle, I. J. Weinrieb, M. J. Bertovich & J. F. Formeister: Further evidence that antibody dependent and spontaneous cell-mediated cytotoxicity are mediated by different processes or cell types 439
D. C. Henderson, E. A. Braidwood, D. M. Smillie & R. G. White: Kinetics of the decline phase of the primary response to human serum albumin in the bird 449
P. C. Wilkinson: Effects of human IgG on locomotion of human neutrophils related to IgG binding of a hydrophobic probe 457
C. M. Scully, M. W. Russell & T. Lehner: Specificity of opsonizing antibodies to antigens of *Streptococcus mutans* 467
S. E. Schonfeld & Susan Herles: *In vitro* and *in vivo* autoimmune response to enamel matrix proteins 475
J. C. Roder: Target-effector interaction in the natural killer (NK) cell system VI. The influence of age and genotype on NK binding characteristics 483
Helen K. Beard, Ruth Ryvar, R. Brown & Helen Muir: Immunochemical localization of collagen types and proteoglycan in pig intervertebral discs 491

Vol. 41 No. 3 **November 1980**

P. J. LACHMANN, R. G. OLDROYD, C. MILSTEIN & B. W. WRIGHT: Three rat monoclonal antibodies to human C3 503

F. H. VALONE & E. J. GOETZL: Structural requirements for the activity of an immunologically generated lipid chemotactic factor 517

J. SAWADA & T. OSAWA: Characterization of lectin-induced cellular cytoxicity mediated by mouse spleen cells and the role of lymphotoxin 525

MARIA J. MARTIN, J. VEGA & CARMEN GUTIÉRREZ: Antibody-independent complement activation by a subpopulation of mitogen-induced human T lymphoblasts 535

V. A. LAVROSVSKY & V. KH. VIKSLER: Natural killer activity of Wistar rat spleen cells: blocking effect of homologous sera 541

ANNE MARIE BENOLIEL, C. CAPO, P. BONGRAND, ANTOINETTE RYTER & R. DEPIEDS: Non-specific binding by macrophages: existence of different adhesive mechanisms and modulation by metabolic inhibitors 547

C. J. HOWARD: Variation in the susceptibility of bovine mycoplasmas to killing by the alternative complement pathway in bovine serum 561

D. W. DRESSER & ANGELA M. POPHAM: Rheumatoid factors in mice: plaque assay for homophile and heterophile rheumatoid factors 569

ANGELA M. POPHAM & D. W. DRESSER: Rheumatoid factors in mice: non-specific activators of heterophile rheumatoid factor production 579

E. D. ZANDERS, J. R. LAMB, SIRKKA KONTIAINEN & T. LEHNER: Partial characterization of murine and monkey helper factor to a streptococcal antigen 587

SUSAN STEPHENS, JEAN M. DOLBY, J. MONTREUIL & GENEVIEVE SPIK: Differences in inhibition of the growth of commensal and enteropathogenic strains of *Escherichia coli* by lactotransferrin and secretory immunoglobulin A isolated from human milk 597

G. MOLLER & W. KONIG: Binding characteristics of aggregated IgGa to rat basophilic leukaemia (RBL) cells and rat mast cells 605

T. J. NEWBY, C. R. STOKES & F. J. BOURNE: Effects of feeding bacterial lipopolysaccharide and dextran sulphate on the development of oral tolerance to contact sensitizing agents 617

M. CORTENS, SUZI SKLAR & M. RICHTER: The detection and identification of subpopulations of circulating human lymphocytes, monocytes and neutrophils capable of effecting a mitogen-induced cell-mediated cytotoxic reaction towards erythrocytes of various species 623

M. J. LEFFORD: Properties of peritoneal exudate lymphocytes that mediate tuberculin delayed-type hypersensitivity and anti-tuberculosis immunity I. The effect of cytotoxic agents 635

M. J. LEFFORD: Properties of peritoneal exudate lymphocytes that mediate tuberculin delayed-type hypersensitivity and anti-tuberculosis immunity II. Velocity sedimentation analysis 643

S. KANO, K. OSHIMI, M. SUMIYA & N. GONDA: Activation of secondary cytotoxic lymphocytes by cell-free factors from I-region-primed and D-region-primed lymphocytes 653

D. G. HAEGERT: Demonstration of immunoglobulin-related molecules on human peripheral blood lymphocytes using chicken anti-$F(ab')_2$ and anti-IgM antibodies 663

C. G. BROOKS, G. R. FLANNERY, P. J. WEBB & R. W. BALDWIN: Quantitative studies of natural immunity to solid tumours in rats. The nature of the killer cell depends on the type of assay 673

R. A. MARGNI, GABRIELA PERDIGÓN, CARMEN ABATÁNGELO, TERESA GENTILE & R. A. BINAGHI: Immunobiological behaviour of rabbit precipitating and non-precipitating (co-precipitating) antibodies 681

N. KIGER, M. BRULEY-ROSSET, R. HUCHET & G. MATHE: Study of the effect of single or multiple doses of BCG on antibody-dependent cellular cytotoxicity 687

A. S. JOHANSEN, J. STEENSGAARD & C. JACOBSEN: Solubility properties of IgG immune complexes. Comparison between the effects of low molecular weight solvents and polyethylene glycols 695

J. A. HARE, A. AHMED & K. W. SELL: *In vitro* and *in vivo* response of lymphoid cells from LHC hamsters to murine thymus-independent and thymus-dependent antigens 705

J. K. MILTON: The effect of glutaraldehyde fixation on the immunogenicity of allogeneic lymphoid and tumour cells 715

D. H. VESOLE & G. E. MOORE: The induction of human peripheral blood lymphoid colonies by conditioned media from human tumour cell lines 723

K. L. MORGAN, A. M. HUSSEIN, T. J. NEWBY & F. J. BOURNE: Quantification and origin of the immunoglobulins in porcine respiratory tract secretions 729

S. BHAKDI & J. TRANUM-JENSEN: Re-incorporation of the terminal C5b–9 complement complex into lipid bilayers: formation and stability of reconstituted liposomes 737

M. P. BRITTLE & J. H. L. PLAYFAIR: The role of T cells in regulating immunoglobulin class and subclass 743

BOOK REVIEWS 753

ANNOUNCEMENT 757

Vol. 41 No. 4 **December 1980**

REVIEW PAPER

M. J. TAUSSIG: antigen-specific T-cell factors 759

K. NAGAKI, MISAKO MATSUMOTO & H. KITAMURA: A low molecular weight inhibitor of the alternative complement pathway. I. Its isolation from human urine and the reaction mechanism 789

T. F. BUMOL, E. F. RETZEL, S. D. DOUGLAS, R. S. BASCH, J. N. BUXBAUM & A. J. FARAS: Terminal deoxynucleotidyl transferase expression in a Thy-1 alloantigen variant lymphoma cell line 799

J. R. BIRMINGHAM & E. L. JESKA: The isolation, long-term cultivation and characterization of bovine peripheral blood monocytes 807

ANNE COOKE, PATRICIA HUTCHINGS & S. MARSHALL-CLARKE: Lack of autoantigen-specific splenic suppressor cells in mice with an X-linked B-lymphocyte defect 815

ANNE COOKE & PATRICIA HUTCHINGS: Sex differences in the regulation of experimentally induced autoantibodies in $(NZB \times NZW)F_1$ mice 819

BENEDITA ROCHA, A.A. FRIETAS & DELPHINE PARROT: Characterization of rat spleen cell populations. II. Activation by antigens and allogeneic cells 825

B. GOUD, J.-C. ANTOINE, N. K. GONATAS, ANNA STIEBER & S. AVRAMEAS: A morphological and functional study on antigen binding and endocytosis by immunocytes 833

M. R. DAHA & L. A. VAN ES: Isolation and characterization of rat complement factor B and its interaction with cell-bound human C3 849

T. LEHMER, S. J. CHALLACOMBE & J. CALDWELL: Oral immunization with *Streptococcus mutans* in rhesus monkeys and the development of immune responses and dental caries 857

G. M. BAHR, G. A. W. ROOK, E. MORENO, P. M. LYDYARD, F. Z. MODABBER & J. L. STANFORD: Use of the ELISA to screen for anti-thymocyte and anti-B_2-microglobulin antibodies in leprosy and SLE 865

D. B. A. Symons & Carol A. Clarkson: Isoelectric heterogeneity of immunoglobulin secreted by LPS-activated neonatal and adult pig lymphocytes *in vitro* 875

K.-G. Sundqvist & Lena Wanger: Anchorage and lymphocyte function. Contact-induced augmentation of T-cell activation 883

Ph. Gausset, G. Delespesse, J. Duchateau & H. Colliet: *In vitro* response of human peripheral blood lymphocytes to protein A. DNA synthesis and generation of cells synthesizing the three major classes of Ig. 891

J. G. Hall, L. A. Gyure & A. W. R. Payne: Comparative aspects of the transport of immunoglobulin A from blood to bile 899

A. J. Williams, M. J. G. Hastings, C. S. F. Easmon & P. J. Cole: Factors affecting the *in vitro* assessment of opsonization: a study of the kinetics of opsonization using the technique of phagocytic chemiluminescence 903

B. Ryffel, P. Donatsch, U. Götz & Marianne Tschopp: Cyclosporin receptor on mouse lymphocytes 913

S. Romagnani, G. F. Del Prete, E. Maggi, P. Falagiani & M. Ricci: T-cell independence of immunoglobulin synthesis by human peripheral blood lymphocytes stimulated with SpA-containing staphylococci 921

J. Gerdes & H. Stein: Physiocochemical characterization of C3b receptors isolated from human erythrocytes by immunoprecipitation 929

Kazuko Saito, T. Natsuno & S. Mitsuhashi: Cell participation in immune response by immune ribonucleic acid. I. The role of T lymphocytes in immune response by immune RNA against T-dependent antigens 937

Kazuko Saito, T. Natsuno & S. Mitsuhashi: Cell participation in immune response by immune ribonucleic acid. II. Independent of T lymphocytes in immune response against T-independent antigens 947

C. A. Ottaway & Delphine M. V. Parrott: Regional blood flow and the localization of lymphoblasts in the small intestine of the mouse. I. Examination of normal small intestine 955

C. A. Ottaway, D. F. Manson-Smith, R. G. Bruce & Delphine M. V. Parrott: Regional blood flow and the localization of lymphoblasts in the small intestine of the mouse. II. The effect of a primary enteric infection with Trichinella spiralis 963

C. E. Hormaeche: The *in vivo* division and death rates of *Salmonella typhimurium* in the spleens of naturally resistant and susceptible mice measured by the superinfecting phage technique of Meynell 973

W. B. Van Den Berg, Tineke C. Haasakker, J. Bax & R. J. Scheper: Suppression of antibody-mediated accumulation of eosinophils in chronic inflammatory lesions by concomitant delayed hypersensitivity reactions 981

A. A. Wadee & R. Sher: The effects of a soluble factor released by sensitized mononuclear cells incubated with *S. haematobium* ova on eosinophil migration 989

P. de Baetselier, M. Vaeck, W. de Smet & Y. Ron: Antigen-induced proliferation assay for rabbit T lymphocutes. I. Characteristics of the response 997

G. L. Asherson & M. Zembala: T suppressor cells and suppressor factor which act at the efferent stage of the contact sensitivity skin reaction: their production by mice injected with water-soluble, chemically reactive derivatives of oxazolone and picryl chloride 1005
